

e-Solutions for Trade

▶ **HSBCnet**

Global reach, end-to-end visibility

Manage global trade transactions online in real time, anywhere, anytime

Trade and Supply Chain solutions delivered through HSBCnet enable you to initiate and manage trade transactions for your global offices with access to real time trade account information from anywhere, at any time. These solutions increase efficiency, reduce waiting time and allow you to start your sales, sourcing and manufacturing processes earlier.

Benefits to You

- ▶ **Fast and easy documentary credit (DC) application, issuance and amendment process** with online authorisation functionality to match your back office workflows.
- ▶ **Enhanced control** with the ability to accept or reject discrepancies when submitting settlement instructions for import bills under DC. You can also easily accept and settle non-DC import bills.
- ▶ **Convenient 24x7 access to trade account information** including details of trade transactions and credit facilities.
- ▶ **Access export transaction details** with special functionality for trading companies who are first beneficiaries to conveniently request full or partial transfer of a DC to third parties.
- ▶ **Greater business insight through customisable reports** on your trade transactions.
- ▶ **Export transaction details and DC transfer.** View details of advised DCs and export bills online providing you with real time information to help start your order fulfillment processes earlier. Additionally, as the first beneficiary of a DC, you can request full or partial transfer of the DC to a third party with the click of a button. (Transfers are subject to the terms and conditions of the DC.)
- ▶ **Controlled authorisation of transactions.** HSBCnet enables you to replicate your company's internal controls online, providing a secure way to execute your trade and supply chain transactions. HSBCnet can be tailored to provide different authorisation flows to mirror the approval processes followed within your company. You can also set authorisations by user and account level to ensure your transactions reach the right destinations – safely and accurately.
- ▶ **Trade account information.** The following real time detailed trade account information is available:

Product Features

With Internet Trade Services, you can access the following functions:

- ▶ **Import DC applications and amendments.** Apply for import DCs or make subsequent amendments online. DCs can be created faster and more efficiently by using saved DC templates, applicant and beneficiary lists and standard or customised clauses.
- ▶ **Import bill instructions.** View details of outstanding import DCs and collection bills and submit settlement instructions – all at the same time. Conveniently control your trade payments with the ability to view discrepancies and accept or reject DC bills online.

- Full text of DCs issued or advised
- Outstanding and paid bills
- Outstanding shipping guarantees, air waybills and delivery orders
- Loans and marginal payment details
- Expiration and due dates for DCs, bills and loans

You can find transactions more quickly with filters that allow you to find records based on criteria such as the DC number, issuance date or expiry date.

HSBC 
The world's local bank

- ▶ **Trade credit facility information.** View available credit limits and outstanding balances, as well as monitor individual transactions for import and export facilities.
- ▶ **Tracking activity and reporting.** Our convenient activity reporting tools give you real time insight into the status of trade transactions and facilities for your accounts worldwide. Use the reporting functionality to reconcile, plan or forecast your trade transactions by accessing data in customised or pre-defined report formats.
